

# Tax Deduction Locator & IRS Trouble Minimizer

Provided By:

## SAVE TIME – READ THIS FIRST

This organizer is designed to assist and remind you of information that is needed to prepare your tax return. The goal is not to overlook anything so you can maximize your legal deductions, comply with government reporting requirements, and avoid problems with the IRS after the return is filed.

Taxes are complicated and the rules change constantly. This organizer was designed specifically for the 2013 tax year and certain items may not apply to other years. Although care has been taken to accommodate most taxpayers' needs, please note questions that are related to issues not included here under "Questions You May Have" in Section D5.

**Section Categories** – To help you collect your information quickly, this organizer is organized into four general areas. Information required from:

- everyone – Sections A1 – A13 (Pages 2 & 3)
- those who itemize their deductions – Sections B1 – B11 (Pages 4 & 5)
- those with business or rental income – Sections C1 – C7 (Pages 6 & 7)
- those who have relocated, sold their home, made home energy improvements or have debt relief income – Sections D1 – D4 (Page 8)

The instructions provided in the header of each section will help you determine if you are required to complete the information in that section. Before proceeding, please take a moment to review the purpose of the SPECIAL MARKERS used throughout this organizer.

Your tax information from the prior year is automatically transferred to this year's tax return. Therefore, not all taxpayer data and contact info needs to be recorded. The marker signifies that returning clients need only enter data in that section if it has changed since the prior year or if there is new information.

This marker notes areas where the IRS can match the entry on their computer and incomplete or incorrect information can trigger government correspondence or, worse yet, an office audit. Pay particular attention to sections or individual entries with this symbol.

This flag symbol denotes areas where a deduction or item of income is to be treated differently when computing the alternative minimum tax (AMT). The AMT is another way of computing your tax liability, which applies more restrictive limits on certain deductions and preference income. If higher than the regular tax, the AMT applies.

This marker indicates payments that may require the issuance of a 1099 if the annual amount paid to an individual is \$600 or more. Failure to file 1099s can lead to a loss of the tax deduction for that expense and failure to timely file the forms with the IRS and furnish copies to payees can result in substantial penalties.
